Application Summary

Application Guidelines

Application Overview
This application consists of seven required narrative questions, three optional narrative questions, a budget template, and a series of fill-in fields. The application is divided into five sections (Overview, Program, Population Served, Capacity, and Budget) and each section has its own tab. Please note that the Foundation does not require or accept any supplementary application materials, such as letters of support.

Application Assessment
Applications will be reviewed and assessed for alignment with the eligibility criteria and the granting priorities for this round of Project Grants, as outlined in the funding call. We encourage grant-seekers to familiarize themselves with this information prior to applying. To review the funding call, please click here

Requested Amount and Budget
You may request up to a maximum of $250,000. Please also submit a budget using the template provided under the Budget tab. You may also provide additional information relating to your budget using the optional narrative question. Please refer to the Foundation's guidelines for budgets which provide a set of principles to consider, as well as some requirements. Submitted budgets that do not meet the requirements will not be approved by the Foundation.

Start and End Dates
Project Grants are expected to support between one and three years of activity, although a longer grant duration may also be considered and there is potential for the grant period to be extended as needed. The Foundation expects to communicate decisions by Fall 2025.

Word Limits
We have set word limits for each narrative question. The word limit for each narrative question is clearly indicated and, depending on the question, ranges from 250 words (approximately half a page) to 500 words (approximately one page length), with most questions having a word limit of 350 words. These word limits are set to respect grant-seekers' time and reduce the pressure to describe in detail every aspect of the project at this point. In addition, it allows the Foundation to review applications more efficiently. If you have additional information to communicate about your proposed project, we ask you to use the optional question at the end of the application. Foundation staff will also reach out during review of applications, if any additional information or clarity is needed. If the word limits create challenges in completing this application, we invite your feedback related to word limits via the survey link included at the end of the application process.

Feedback Survey
After you complete and submit your application, you will receive an email notification with a short feedback survey. While this survey is optional and responses can be anonymous, we encourage all grant-seekers to complete it so we can continue to improve the grant application process.
